

Job Description | Full Stack JavaScript Developer

We are seeking a passionate Full Stack JavaScript Developer to join our growing team.

1. ABOUT ELTEMATE

We are ELTEMATE – A Hogan Lovells Legal Tech Company. Our goal is to make clients' lives easier by delivering practical solutions to everyday problems. We combine a deep understanding of our clients' legal needs with the speed and innovation of a technology start-up. Our portfolio covers a large spectrum of legal tech solutions including artificial intelligence, eDiscovery, information analysis, regulatory updates, databases, deal rooms, workflow management, case management, document automation, risk assessment, reporting, and apps.

With our headquarters in Amsterdam and branches in the United States, Germany, the UK, Singapore, and Brazil, we are a truly global team of around 100 professionals. Our diverse and international workforce thrives on collaboration, creativity, and expertise.

If you're ready to make an impact in legal tech and work in an inspiring global setting, we'd like to hear from you.

2. ROLE DESCRIPTION

We are seeking a talented and experienced Full Stack JavaScript Developer to join our dynamic team. As a Full Stack Developer, you will be responsible for designing and developing robust, scalable, and high-performance web applications using the latest technologies. You will collaborate with a cross-functional team to deliver innovative solutions that meet our clients' needs.

3. DUTIES AND RESPONSIBILITIES

- Develop and maintain full stack web applications using JavaScript (TypeScript), React, and GraphQL.
- Collaborate in the design and implementation of intuitive and visually appealing user interfaces.
- Design and implement back-end APIs and services to support front-end functionalities.
- Write clean, efficient, and modular code adhering to best practices and coding standards.
- Optimize application performance and ensure scalability.
- Collaborate in the database design and management of those systems (PostgreSQL or MongoDB).
- Conduct thorough testing and debugging to identify and resolve issues.
- Stay updated with emerging trends and technologies in the field of web development.

4. REQUIRED KNOWLEDGE, SKILLS, AND EXPERIENCE

- Bachelor's degree in Computer Science, Engineering, or a related field (or equivalent experience).
- Strong proficiency in JavaScript programming language.
- Experience with React.js and its ecosystem.
- Familiarity with GraphQL and its implementation (Apollo, Relay, etc.).
- Strong problem-solving skills and ability to work in a fast-paced environment.
- Excellent communication and collaboration skills.

5. OTHER PREFERRED SKILLS

- Managing and optimizing database systems (PostgreSQL or MongoDB).
- Nest.js and Next.js experience

6. OTHER DETAILS

- Full-time employee (40 hours/week).
- Reports to Chief Operating Officer of the Americas
- Works closely with the Head of Application Engineering, Head of Product Development, and Head of Data Science, and their respective teams.
- Located preferably in the US.
- Compensation depending on qualifications and experience.

7. DISCLAIMER

ELTEMATE is an equal employment opportunity employer and does not discriminate against any employee or applicant for employment based on race, colour, religion, gender, national origin, age, sex, disability, veteran status, marital status, sexual orientation, gender identity or any other characteristic protected by law.

If you are interested, please get in touch with us by sending your resume and motivation at hr@eltemate.com. We look forward to meeting you. Please note: We manage our recruitment in-house and do not work with agencies.
